

Flake Ice Plant

FIP standard configuration

Design conditions

1. outside is standard white 20/40 feet new container; inside is decorated with air conditioner, illumination and aluminum alloy floor;
2. refrigerating compressor unit is semi-hermetic screw piston compressor;
3. evaporative condenser with double speed fan;
4. flake ice evaporator with water tank and pump;
5. necessary oil cooling system and oil return system;
6. necessary refrigeration system control and protect components and refrigeration pipeline connection;
7. the interface with the ice storage for operation and alarm signal connection;
8. electrical control components and electric box for automatic control;
9. factory test.

Max. ambient temperature: 60°C
Wet bulb temperature: 29°C
Water-in temperature: 5°C
Ice out temperature: -7°C
Voltage: 400V
Phase: 3
Frequency: 50 Hz
Run time: 24 hours
Refrigerant: R22/R404A/R717
